## Patent Marking Guidelines: Obligation

- Section 2.6 of the VVC Advance Patent Portfolio License Agreement (“PPL”) defines a Licensee’s patent marking obligations.
- These Guidelines are intended to offer examples of markings that satisfy a Licensee’s obligations.
- These Guidelines do not modify or replace the obligations in the PPL, but instead provide examples of how to meet them.
- These Guidelines may be updated from time to time, and our Licensees will be afforded a reasonable amount of time to update their patent markings.
- If you have any questions or concerns about these Guidelines, please contact us at [licensing@accessadvance.com](mailto:licensing@accessadvance.com).

## Patent Marking Guidelines: General

- Except as otherwise described herein, the marking obligation is met by marking Licensed Products as follows:
  - “Covered by one or more claims of the VVC patents listed at [patentlist.accessadvance.com](http://patentlist.accessadvance.com).”
- **Appearance**
  - The marking should be easily read without aids by the End User.
  - The marking should be written in the language(s) used on the Licensed Product or its packaging. In cases where multiple languages are used and it is not practical to include the marking in every language, then it is acceptable to limit marking to (1) the predominant language used on the Licensed Product or its packaging, and (2) English.
  - Translations of the patent marking are available upon request.

## Patent Marking Guidelines: General

- Placement
  - Patent marking information should be placed on the product itself.
  - If that is not reasonably feasible or practical, then it should be placed on the outside of the product packaging delivered to the End User in an unobscured location. Marking any associated devices, packaging, product inserts, or other accompanying documentation may be permissible upon prior approval from Advance.

## Patent Marking Guidelines: Software

- In addition to the General Requirement, for VVC Software, a Licensee must also display the marking during software installation, on a splash screen, or on a loading screen.
- This requirement is satisfied by displaying to an End User the following:
  - “Covered by one or more claims of the VVC patents listed at [patentlist.accessadvance.com](http://patentlist.accessadvance.com).”
- **Appearance**
  - The marking should be easily readable without any aids by the End User.
  - The marking should be written in the language(s) used on or with the Licensed Product. In cases where multiple languages are used and its not practical to include the marking in every language, then it is acceptable to limit marking to (1) the predominant language used on or with the Licensed Product, and (2) English.
  - Translations of the patent marking are available upon request.

## Patent Marking Guidelines: For Trademark Licensees

Access Advance allows its VVC Advance Trademark Licensees to combine the licensed VVC Advance Logo with a patent marking notice. Access Advance can make associated design files available to interested VVC Advance Trademark Licensees (please see Program Overview for more information about Trademark Licenses).

# VVC Advance Patent Pool Patent Marking Guidelines: For Trademark Licensees

To ensure legibility of the patent marking notice, the minimum width of the combined horizontal logo and patent marking notice is 58mm and the minimum height of the combined vertical logo is 30mm.

# HEVC & VVC Advance Patent Pool Patent Marking Guidelines

For Licensees of both the HEVC Advance and VVC Advance Patent Pools, the marking obligations of both pools can be met by marking Licensed VVC+HEVC Products as follows:

- “Covered by one or more claims of the HEVC & VVC patents listed at [patentlist.accessadvance.com](http://patentlist.accessadvance.com).”

For HEVC & VVC Advance Licensees that are also Trademark Licensees under both the HEVC Advance and VVC Advance Patent Pools, a combined HEVC+VVC Advance Logo with a patent marking notice is available for use. Access Advance can make associated design files available to interested HEVC & VVC Advance Patent Portfolio Trademark Licensees.
